DETAILED ACTION

1. Claims 1-9 remained pending.

Claim Rejections - 35 USC § 102

- 2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:
 - A person shall be entitled to a patent unless -
- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 3. Claims 1-9, are rejected under 35 U.S.C. 102(b) as being anticipated by Giovannoli U.S Patent 5, 842, 178).

As per claim 1, Giovannoli discloses a method of exchanging data between a buyer and a plurality of multiple suppliers via an internet supplier on-line system: generating by a buyer a request for a quotation from at least some of the plurality of suppliers for a cost of a part or device(Note abstract and see column 1-8 lines 1-67) determining if the request for the quotation will include attachments; generating documents when the request for quotation will include attachments, wherein the request for quotation and attachments include both engineering and business documents determining which of the plurality of suppliers are to be provided with the request for quotation and attachments (Note abstract and see column 1-8 lines 1-67) inquiring whether all suppliers to be provided with the request for quotation and attachments are registered on the supplier on line system; registering the suppliers not on the supplier on-line system; notifying the buyer, automatically by the supplier on-line system, of the registration of the suppliers(Note abstract and see column 1-8 lines 1-67) determining whether the request for quotation is for a commodity part or device or is for a non-commodity part or device;

building the request for quotation, wherein the building includes joining the business

and technical documentation into a request for quotation pack; registering information

in one of a item bidding process for commodity parts or devices or a service bidding

Application/Control Number: 09/929,376

Art Unit: 3692

process for non-commodity parts or devices(Note abstract and see column 1-8 lines 1-67)

selecting the suppliers that are to receive the request for quotation pack; making the request for quotation pack available to selected suppliers on a supplier on-line system web site; and

e-mailing all suppliers that the request for quotation pack is available at the web site. (Note abstract and see column 1-8 lines 1-67).

As per claim 2, Giovannoli discloses further including: reviewing, by the supplier, the available request for quotation pack; responding, by the supplier, by generation of a quotation corresponding to the request for quotation pack, submitting the quotation to the recited supplier on-line web site; and e-mailing automatically by the supplier on-line system, the buyer that the supplier has entered a quotation. (Note abstract and see column 1-8 lines 1-67).

As per claim 3, Giovannoli discloses further including: analyzing automatically the request for quotation pack to determine a last day available for the supplier to respond, determining, if the day the quotation is provided by the supplier is prior to the last day to respond to the request for quotation pack; and providing the buyer with the capability to review quotations for request for quotation pack received prior to the last day to respond. (Note abstract and see column 1-8 lines 1-67).

As per claim 4, Giovannoli discloses further including: determining whether a need exists to alter the last day for responding to a request for quotation;

altering the last day suppliers may respond to a request for quotation; and transmitting, automatically, e-mail notifications to the suppliers that the last day to respond to the request for quotation has been altered. (Note abstract and see column 1-8 lines 1-67).

As per claim 5, Giovannoli discloses wherein the action of making the request for quotation with the attached documents available to select suppliers includes synchronizing the data in the request for quotation with internal and external

Art Unit: 3692

databases in order to transfer the files to a designated web site. (Note abstract and see column 1-8 lines 1-67).

As per claim 6, Giovannoli discloses further including a action of downloading documentation from sources outside of the supplier on-line system for inclusion into the request for quotation pack. (Note abstract and see column 1-8 lines 1-67).

As per claim 7, Giovannoli discloses further including an automatic document transfer process which generates files to be included in the request for quotation pack wherein the automatic document transfer process transfers the generated files to individual supplier folders maintained on a back end supplier on-line server. (Note abstract and see column 1-8 lines 1-67).

As per claim 8, Giovannoli discloses further including an upload document transfer process wherein a supplier is able to upload document information to the supplier on-line system which may be received by the buyer. (Note abstract and see column 1-8 lines 1-67).

As per claim 9, Giovannoli discloses further including: registering part or device number information within the bidding process for the commodity parts or devices; and selecting the documentation that is to be attached to individual parts or devices of the request for quotation to form the request for quotation pack. (Note abstract and see column 1-8 lines 1-67).

Conclusion

RESPONSE TO ARGUMENTS

- 4. In response to Applicant's arguments filed 9/06/2006 has been fully considered but they are most in view of new grounds of rejections.
- 5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clement B Graham whose telephone number is 703-305-1874. The examiner can normally be reached on 7am to 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hyung S. Sough can be reached on 703-308-0505. The fax phone numbers

Application/Control Number: 09/929,376

Art Unit: 3692

for the organization where this application or proceeding is assigned are 703-305-0040 for regular communications and 703-305-0040 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-305-3900.
